Dear YCE participants,

**we want to invite you to Czech republic to our Lions International Youth Camp Pilsen 2020 !**

When we say Pilsen, most of us will think of beer. And it is not surprising as Pilsen provided the world with the famous golden lager, (Pilsner), after which beers of the same type around the world are named. The city with more than 700 years of history, which is reflected in magnificent buildings situated in the historical centre, has changed beyond recognition over recent few years. If you come to Pilsen these days, you will not see a grey and tired city, but a modern gleaming metropolis that has a lot attractions to offer to its visitors. Not coincidentally this city won the title European Capital of Culture for the year 2015.
